About Safer Together and the Industry Safety Induction (ISI)

Nic Andrews (SWMS)

APGA, Brisbane, 8 August 2019
What is Safer Together?

• Established in 2014 (Qld) and 2018 (WA/NT)
• Not for profit, member-led
• Independent Chapters (Qld and WA/NT)
• Members:
  – Operating Companies
  – Contract Partner Companies

Industry-led, not Operator-led

Why collaborate?

• We operate within common geographical areas
• We use similar technologies with common hazards and risks
• In terms of safety, we must be seen as one industry not separate companies
• As we enter the next lifecycle phase we must engage senior leaders of operating and contracting companies to build a culture that fosters continual safety improvements.

Collaboration on safety is a natural outcome
What are the focus areas?

- Safety Leadership
- Competence & Behaviour
- Process Safety
- Land Transport/Logistics
- Rig Site Safety
- Marine (WA/NT)
- Aviation (WA/NT)
One Industry
One Induction

Image courtesy of Arrow Energy
WHAT is it?

• 1 day training course
• Topics:
  • Introduction to the Qld Natural Gas E&P Industry
  • Legislation & Duty of Care
  • Hazards and Risks
  • Communicating About Hazards and Risks
  • Safe Workplace Behaviour
WHY are we doing it?

• Many Contractors work for several Operators, often on various sites. This leads to duplication, cost inefficiencies and potential confusion via mixed messages when delivering safety inductions to workers as they move from client to client and site to site.
WHO is it for?

• All new industry starters are required to satisfactorily complete the ISI prior to starting work in the Queensland Natural Gas Exploration and Production Industry. A ‘new starter’ is anyone who has not worked for at least 12 months in the last 2 years in the Queensland Natural Gas Exploration and Production Industry.
WHERE is it done?

• Regularly conducted at training centres in:
  • Brisbane
  • Gladstone
  • Toowoomba
  • Dalby
  • Chinchilla
  • Roma

• Can also be conducted at alternative venue of your choosing
HOW do I book my place?

http://www.wellcontrolcentre.com.au
/industry-safety-induction/

COMING NEXT:
• Launch in WA/NT (1 October 2019)
• Courses in:
  • Perth
  • Karratha
  • Darwin
• Modified for MHFs, different jurisdictions
• ONE national induction for our industry
